APPENDIX R SOLUTIONS ENGINEERING ANSWERS FOR REGULATORY CONFIDENCE

Our Latest Solution...

FIRE PROTECTION WEBSITE

Facilitates Cost-Effective Plant Implementation of the Fire Protection Program

Facilitates Day-to-Day Plant Fire Prevention Activities

Facilitates Access to Design & Licensing Basis Information

Supports Configuration Management

Tool to Facilitate Common Processes at Multi-Site Utilities

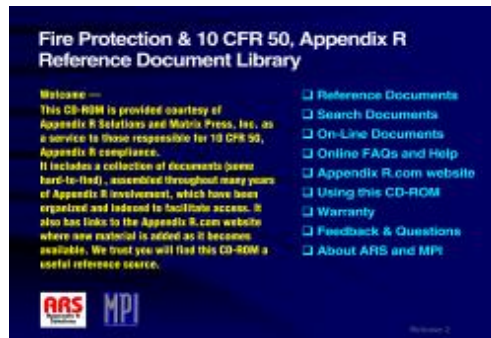

STANDARD FEATURES

BASED ON ELEMENTS OF NEI-LP006, FIRE PROTECTION PROCESS MAP

Website Features Include:

- Plant Fire Protection Library - Includes quick access to Fire Hazard Analysis, Licensing Correspondence, Safe Shutdown Analysis, and other Licensing and Design Basis information.
- Other topics cover Fire Prevention, Fire Brigade, Training, Fire Risk Assessment/ Management and Configuration Management.
- Quick access to plant Self-Assessment Reports, QA Audit Reports, NRC Inspection Reports, NEI Guidance Documents, Fire Protection Program Manual, Strategic Planning Documents, Performance Indicators, etc.
- Help Desk – Includes FAQs, Fire Protection Program Organization, Contact Information. Fire Protection Community Discussion Forum.
- Website design incorporates use of Word, Excel, and Access documents to maximize capability for plant staff to manage day-to-day changes/additions.
- and More

ARS REFERENCE DOCUMENT LIBRARY INSTALLED ON CLIENT LAN

ARS Fire Protection and Appendix R Reference Document Library – Includes NRC Regulations, BTPs, Generic Letters, Bulletins, Information Notices, NUREGS, Regulatory Guides, SECY Letters, etc. – All text searchable.

AVAILABLE OPTIONS

OPTIONS

- Creation of text searchable Electronic Library of Licensee Design and Licensing Basis documents installed on site LAN
- Update Licensee Fire Protection Program Manual consistent with NEI LP006, Fire Protection Process

BONUS FEATURES

DIRECT AND SEAMLESS ACCESS TO ON-LINE SDP CALCULATOR

Calculate risk significance of degraded fire protection features per NRC Inspection Manual Chapter 0609, Significance Determination Process. Use SDP to support plant decisions.

Plus

- Direct Access to Inspection Findings Database
- Direct Access to Industry “Hot Topics” page
- and More at AppendixR.com
